

# SiT6701DM

## QUICK START GUIDE

### Package Contents for SiT6701DM Evaluation Board

Item	Image
SiT6701DM	 A photograph of the SiT6701DM Evaluation Board, a green printed circuit board (PCB) populated with various electronic components. The board features a central black integrated circuit (IC), several surface-mount components, and a USB Type-A port on the left side. Two gold-plated SMA connectors are visible on the top edge. The SiTime logo is printed on the board. The board is shown from an isometric perspective.

## Quick Start

---

1. Download the **TimeMaster™ software** at:  
[www.sitime.com/sites/default/files/gated/TimeMaster\\_rev.1.0.msi](http://www.sitime.com/sites/default/files/gated/TimeMaster_rev.1.0.msi)
2. Download the **SiT6701DM user manual** for details on board and software usage at:  
[www.sitime.com/sites/default/files/gated/SiT6701DM-User-Manual.pdf](http://www.sitime.com/sites/default/files/gated/SiT6701DM-User-Manual.pdf)
3. Install the TimeMaster software.
  - a. TimeMaster software will run on Windows 7 and Windows 10.
  - b. TimeMaster software requires .NET Framework 4.5 or higher to be installed on the PC.
4. Connect the SiT6701DM board to the PC with a USB Micro Type B connector (X1).
  - a. Windows will install all needed drivers automatically.
5. Launch the TimeMaster software.
